Rafael Antunes Simões

About Me

I'm a young fella from Braga that want's to be a developer!
I believe that I'm committed, motivated and a team player!
I learned through these years that, to get somewhere, you've got to be humble and work hard.

Others

"Work" in a Restaurant
Rola Este - Restaurant, Braga

I had to put it here as "others" because, despite working in this restaurant since 2014, I was never "legal". I had to do it because my parents couldn't afford my academic expenses.
Over the years, the boss delegated more responsibilities to me, for example, organization and logistics of events such as weddings, baptisms and events outside the restaurant.

Social Media Manager
São Mamede FC - Football Club

I already played for this team, but I had to leave for a while to concentrate on my studies, but the club's management asked me to be responsible for the club's social networks.

Academic History

Degree in Computer Science
University of Minho [2015/16 - 2020/21]

This is a course that tries to prepare students for the work world by teaching a lot of computer concepts as well as a great base in mathematics.

Digital Marketing Course
AAUM (Students Association of University of Minho) [Nov, 2017 - 30 h]

It was in this course that I had my first contact with HTML & CSS, but I also learned about several other tools such as Google AdSense, AdWords, MailChimp, and other marketing concepts such as the notion of niches, target audience, keywords, perfect timming...

English Conversation Course B2
BabeliUM, Language Center - University of Minho [Jun, 2019 - 48 h]

II entered this course with the purpose of improving my speech in English. Presential classes with an excellent teacher who helped us all to improve vocabulary, but mainly to speak and communicate in a more fluid way.
We also evaluated other aspects besides speech. I ended with a B2 assessment in writing and reading. In oral production, the teacher rated me with B2+.

Skills

These are some **languages/tools** that used to throw out my academic life and others that I learned by myself:
- **Haskell;**
- **C / C++**
- **Python**
- **Java**
- **mySQL and a little of MongoDB**
- **JavaScript**
- **Git**
- **HTML, CSS, Bootstrap**
...

Extras

Languages Spoken:
- English: B2+
- Portuguese: Fluent

Driving license:
-Yes: B/B1

Best soft skills:
- Organization
- Interaction with people
- Commitment
- Resilience
